---

November 2021

To the patients of Dr. Carol Ostry:

I am pleased to announce that Dr. Danielle Cherniak will join me in the care of my patients.

We plan to work together in cross-coverage which will be a combination of covering weeks solely and sharing time during the week.

I had been hoping to find a kindred spirit with whom I could share my practice and am very pleased to welcome Dr. Danielle Cherniak. We are both transplanted Albertans and our approach to patient care is very compatible!

Dr. Danielle Cherniak adds her own message:

“Greetings,

I would like to introduce myself, provide some background information, and tell you all how excited I am to be joining Sea Cove Medical Clinic. My name is Danielle Cherniak, and I am a Family Doctor. I studied medicine and completed residency training in Alberta, and I have been working in rural practice since graduating over 4 years ago. During that time, I had the pleasure of looking after patients in my full scope family medicine clinic. Additionally, I also cared for patients who were more critically unwell in a hospital setting. This included working in the emergency department and on the acute care ward once patients were admitted. I feel truly honoured to have worked as a part of such an amazing community, but B.C. has been calling my name for years! My husband and I are thrilled to be calling Comox home, and it is my intention to spend the remainder of my medical career in this gorgeous community.

Outside of caring for patients, I enjoy being outdoors, cooking meals for friends and family, and travelling. I look forward to meeting each of you in person, and I am honoured to be joining an incredible medical home at Sea Cove Medical Clinic.”

I look forward to introducing Dr. Danielle Cherniak to all my patients, and I am sure you will be pleased to meet her!

Yours Sincerely,

Dr. Carol Ostry & Dr. Danielle Cherniak
